

Working Group town twinning

In March 1982, a partnership committee was established in order to promote the contacts and activities with our twin city with new ideas

The Councillor M. Bertsch was the leader, the work was done by the administration of the town.

The former committee has now become the work group partnerships. Like formerly, the administration is interested in promoting the relations with the twin cities, together with committed citizens.

There are twelve people altogether in the different groups for Poligny, Ronneby, Kleinmachnow and Dikome, assisting the administration, that directs the activities. All ideas are welcome.

Exchange can take place on the political, cultural, sportive, economic, social and human level.
